For Research Use Only

RB1 Polyclonal antibody

Catalog Number:17218-1-AP

Featured Product

25 Publications

Basic Information	Catalog Number: 17218-1-AP	GenBank Accession Number: BC039060	Purification Method: Antigen affinity purification
	Size:	GeneID (NCBI):	Recommended Dilutions:
	300 µg/ml	5925	WB 1:500-1:1000
	Source: Rabbit	UNIPROT ID: P06400	
	lsotype: IgG	Full Name: retinoblastoma 1	
	Immunogen Catalog Number: AG11035	Calculated MW: 928 aa, 106 kDa	
		Observed MW: 110 kDa	
Applications	Tested Applications: WB, ELISA	Positive Controls:	
	WB : HT-1080 cells, Cited Applications: WB		
	Species Specificity: human		
	Cited Species: human, zebrafish		
Background Information			
Background Information	of entry into cell division that act The underphosphorylated, active cell cycle arrest. It is directly invo and, in particular, that of constitut histone methyltransferases SUV3 RB1 controls histone H4 'Lys-20' ti transcriptional repression by SMA promoter. In resting neurons, tran phospho-RB1-HDAC1 repressor con to release of the repressor comple protein or adenovirus E1A proteir	s as a tumor suppressor. RB1 acts as a form of RB1 interacts with E2F1 and olved in heterochromatin formation b tive heterochromatin by stabilizing h (99H1, SUV420H1 and SUV420H2, lead imethylation and inhibits the intrins (RCA4/BRG1 by recruiting a histone of scription of the c-FOS promoter is inl mplex. Upon calcium influx, RB1 is of ex. In case of viral infections, interac	a transcription repressor of E2F1 target gene represses its transcription activity, leading to by maintaining overall chromatin structure nistone methylation. It recruits and targets ding to epigenetic transcriptional repression sic kinase activity of TAF1. It mediates deacetylase (HDAC) complex to the c-FOS hibited by BRG1-dependent recruitment of a dephosphorylated by calcineurin, which leace tions with SV40 large T antigen, HPV E7 1 complex thereby disrupting RB1's activity.
	of entry into cell division that act The underphosphorylated, active cell cycle arrest. This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

Selected Validation Data

HT-1080 cells were subjected to SDS PAGE followed by western blot with 17218-1-AP (RB1 antibody) at dilution of 1:500 incubated at room temperature for 1.5 hours.
