For Research Use Only

Syntaxin 2 Polyclonal antibody

Catalog Number:55033-1-AP

Featured Product

5 Publications

NM_001980

UNIPROT ID:

syntaxin 2 Calculated MW: 33 kDa

2054

GeneID (NCBI):

GenBank Accession Number:

Basic Information

Catalog Number: 55033-1-AP Size:

1000 µg/ml Source: Rabbit

P32856 Full Name: Isotype:

> Observed MW: 32 kDa

Purification Method: Antigen affinity purification Recommended Dilutions: WB 1:500-1:1000

IF 1:50-1:500

Applications

Tested Applications: IF/ICC, WB,ELISA Cited Applications: WB, IF, IHC Species Specificity: human, mouse **Cited Species:**

human, rat

Positive Controls:

WB: A431 cells, HeLa cells

IF: HeLa cells,

Background Information

Syntaxin 2 (STX2), also named as EPIM, STX2A, STX2B and STX2C, belongs to the syntaxin family. It is essential for epithelial morphogenesis. STX2 is a member of the SNARE membrane fusion machinery which localized to the midbody during cytokinesis in rat and canine kidney cell lines. Inhibition of STX2 and Vamp8 function by overexpression of nonmembrane-anchored mutants caused failure of cytokinesis leading to the formation of binucleated cells. Time-lapse microscopy showed that only midbody abscission and not further upstream events, such as furrowing, were affected. The antibody is specific to STX2.

Storage

Storage: Store at -20°C.

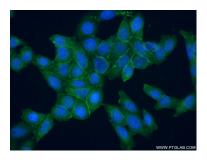

0.1M NaHCO3, 0.1M glycine, 0.02% sodium azide and 50% glycerol pH 7.3.

Aliquoting is unnecessary for -20°C storage

Selected Validation Data

A431 cells were subjected to SDS PAGE followed by western blot with 55033-1-AP (Syntaxin 2 antibody) at dilution of 1:800 incubated at room temperature for 1.5 hours.

Immunofluorescent analysis of (-20°C Ethanol) fixed Hela cells using 55033-1-AP (Syntaxin 2 antibody) at dilution of 1:50 and Alexa Fluor 488-conjugated AffiniPure Goat Anti-Rabbit IgG(H+L).
