## TRAIL Monoclonal antibody

Catalog Number:66756-1-lg 3 Publications

Basic Information	Catalog Number: 66756-1-lg	GenBank Accession Number: BC032722	Purification Method: Protein A purification	
	Size:	GeneID (NCBI):	CloneNo.:	
	1900 µg/ml	8743	1B9B4	
	Source: Mouse Isotype: IgG1 Immunogen Catalog Number: AG25746	UNIPROT ID: P50591	Recommended Dilutions: WB 1:500-1:2000	
		Full Name:	IHC 1:50-1:500	
		tumor necrosis factor (ligand) superfamily, member 10		
		Calculated MW: 281 aa, 33 kDa		
		Observed MW: 28-30 kDa		
Applications	Tested Applications:	Positiv	Positive Controls: WB : human milk tissue,	
	IHC, WB, ELISA Cited Applications:	WB : hu		
	WB, IF		IHC : human tonsillitis tissue, human prostate cance tissue	
	Species Specificity: Human	(1550)		
	Cited Species:			
	human			
	human Note-IHC: suggested antige TE buffer pH 9.0; (*) Altern retrieval may be performed buffer pH 6.0	atively, antigen		
Background Informatior	Note-IHC: suggested antige TE buffer pH 9.0; (*) Alternir retrieval may be performed buffer pH 6.0 TNFSF 10/TRAIL (tumor necrosis fa cells and cytotoxic T lymphocytes does not appear to kill normal cel induces apoptotic cell death in ca (TNFRSF 10A/TRAIL-R1) and DR5 ( activates c-Jun N-terminal kinase	atively, antigen d with citrate actor superfamily member 10) is a s. This protein preferentially induce Ils although it is expressed at a sign ncer by binding to its functional de TNFRSF 10B/TRAIL-R2) to activate t e (MAPK8/JNK) and the transcriptior	es apoptosis in transformed and tumor cells, b nificant level in most normal tissues. TNFSF 1 ath receptors, death receptor (DR) 4 he extrinsic apoptosis pathway. TRAIL also	
	Note-IHC: suggested antige TE buffer pH 9.0; (*) Altern retrieval may be performed buffer pH 6.0 TNFSF10/TRAIL (tumor necrosis fa cells and cytotoxic T lymphocytes does not appear to kill normal cel induces apoptotic cell death in ca (TNFRSF10A/TRAIL-R1) and DR5 ( activates c-Jun N-terminal kinase of this protein to its receptors has	atively, antigen d with citrate actor superfamily member 10) is a s. This protein preferentially induce Ils although it is expressed at a sign ncer by binding to its functional de TNFRSF 10B/TRAIL-R2) to activate t e (MAPK8/JNK) and the transcription been shown to trigger the activation	es apoptosis in transformed and tumor cells, b nificant level in most normal tissues. TNFSF1 ath receptors, death receptor (DR) 4 he extrinsic apoptosis pathway. TRAIL also i factor nuclear factor- $\kappa$ B (NF $\kappa$ B). The bindir on of MAPK8/JNK, caspase 8, and caspase 3.	
	Note-IHC: suggested antige TE buffer pH 9.0; (*) Alternir retrieval may be performed buffer pH 6.0 TNFSF 10/TRAIL (tumor necrosis fa cells and cytotoxic T lymphocytes does not appear to kill normal cel induces apoptotic cell death in ca (TNFRSF 10A/TRAIL-R1) and DR5 ( activates c-Jun N-terminal kinase	atively, antigen d with citrate actor superfamily member 10) is a s. This protein preferentially induce Ils although it is expressed at a sign ncer by binding to its functional de TNFRSF 10B/TRAIL-R2) to activate t e (MAPK8/JNK) and the transcriptior	es apoptosis in transformed and tumor cells, b nificant level in most normal tissues. TNFSF1 ath receptors, death receptor (DR) 4 he extrinsic apoptosis pathway. TRAIL also of factor nuclear factor- $\kappa$ B (NF $\kappa$ B). The bindir on of MAPK8/JNK, caspase 8, and caspase 3. Application	
Background Informatior	Note-IHC: suggested antige TE buffer pH 9.0; (*) Altern retrieval may be performed buffer pH 6.0 TNFSF 10/TRAIL (tumor necrosis fa cells and cytotoxic T lymphocytes does not appear to kill normal cel induces apoptotic cell death in ca (TNFRSF 10A/TRAIL-R1) and DR5 ( activates c-Jun N-terminal kinase of this protein to its receptors has Author	atively, antigen d with citrate actor superfamily member 10) is a s. This protein preferentially induce Is although it is expressed at a sign ncer by binding to its functional de TNFRSF 10B/TRAIL-R2) to activate t e (MAPK8/JNK) and the transcription been shown to trigger the activation Pubmed ID Journal	he extrinsic apoptosis pathway. TRAIL also n factor nuclear factor- × B (NF × B). The bindin on of MAPK8/JNK, caspase 8, and caspase 3. Application Biotechnol IF

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

## Selected Validation Data

human milk were subjected to SDS PAGE followed by western blot with 66756-1-lg (TRAIL antibody) at dilution of 1:2000 incubated at room temperature for 1.5 hours. Immunohistochemical analysis of paraffinembedded human tonsillitis tissue slide using 66756-1-1g (TRAIL antibody) at dilution of 1:200 (under 10x lens). Heat mediated antigen retrieval with Tris-EDTA buffer (pH 9.0).

Immunohistochemical analysis of paraffinembedded human tonsillitis tissue slide using 66756-1-Ig (TRAIL antibody) at dilution of 1:200 (under 40x lens). Heat mediated antigen retrieval with Tris-EDTA buffer (pH 9.0).
