FOR IN VITRO RESEARCH USE ONLY. NOT FOR USE IN HUMANS OR ANIMALS.

ABHD8 Fusion Protein

Catalog Number: Ag14726

Available lyophilized

Expression Source:

Biological Activity:

Endotoxin Level:

Validated Application: Blocking peptide

e coli.-derived, PET28a, with N-terminal 6*His.

Please contact the lab for more information

Form:

Species:

human

Not tested

Peptide Sequence: LLVENLGRAPRADLI SDGRLAPGSAGSGS RITSCKGAQADVVI

(90-439 aa encoded by BC007895)

Reconstitution and Storage

Basic Information

Reconstitution:

Reconstitute at 0.25 μ g/ μ l in 200 μ l sterile water for shortterm storage.

After reconstitution with sterile water, if glycerol has no effect on subsequent experiments, it is recommended to add an equal volume of glycerol for long-term storage (see Stability and Storage for more details).

If a different concentration is needed for your purposes please adjust the reconstitution volume as required (please note: the ion concentration of the final solution will vary according to the volume used).

Note: Centrifuge vial before opening. When reconstituting, gently pipet and wash down the sides of the vial to ensure full recovery of the protein into solution.

Store for up to 12 months at -20°C to -80°C as lyophilized powder.
