	and Storage for more details).						
	If a different concentration is needed for your purposes please						
	adjust the reconstitution volume as required (please note: the ion concentration of the final solution will vary according to						
the volume used).							
Note: Centrifuge vial before opening. When reconstituting,							
gently pipet and wash down the sides of the vial to ensure full recovery of the protein into solution.							
Stability and Storage	Store for up to 12 months at -20°C to -80°C as lyophilized powder.
