This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

Selected Validation Data

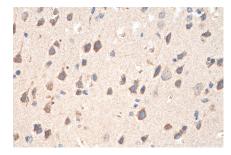

WB result of PINK1 antibody (23274-1-AP, 1:600) with si-Control and si-PINK1 transfected HeLa cells.

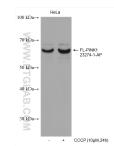

Immunofluorescent analysis of (4% PFA) fixed mouse brain tissue using PINK1 antibody (23274-1-AP) at dilution of 1:400 and CoraLite®488-Conjugated AffiniPure Goat Anti-Rabbit IgG(H+L).

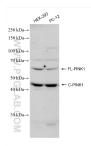

Immunohistochemical analysis of paraffinembedded mouse brain tissue slide using 23274-1-AP (PINK1 antibody) at dilution of 1:2000 (under 10x lens). Heat mediated antigen retrieval with Tris-EDTA buffer (pH 9.0).

Immunohistochemical analysis of paraffinembedded mouse brain tissue slide using 23274-1-AP (PINK1 antibody) at dilution of 1:2000 (under 40x lens). Heat mediated antigen retrieval with Tris-EDTA buffer (pH 9.0).

Non-treated and CCCP treated HeLa cells were subjected to SDS PAGE followed by western blot with 23274-1-AP (PINK1 antibody) at dilution of 1:1000 incubated at room temperature for 1.5 hours.

Various lysates were subjected to SDS PAGE followed by western blot with 23274-1-AP (PINK1 antibody) at dilution of 1:2000 incubated at room temperature for 1.5 hours.
