For Research Use Only

FABP4 Polyclonal antibody

Catalog Number: 31129-1-AP

Featured Product

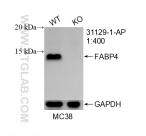

Basic Information	Catalog Number: 31129-1-AP	GenBank Accession Number: NM_001442.3	Purification Method: Antigen affinity purification
	Size: 350 ug/ml Source: Rabbit Isotype: IgG	GeneID (NCBI): 2167	Recommended Dilutions: WB 1:500-1:3000
		UNIPROT ID: P15090	
		Full Name: fatty acid binding protein 4, adipocyte Calculated MW: 15 kDa	
		Applications	Tested Applications: WB, ELISA Species Specificity: human, mouse, rat
WB : mouse skeletal muscle tissue, MC38 cells, rat heart tissue, rat skeletal muscle tissue			
Background Information	Fatty acid binding protein (FABP) 4 is a member of the FABP family which abundantly expressed, fatty acid carrier proteins. FABPs are capable of binding a variety of hydrophobic molecules such as long-chain fatty acids and are important for their uptake and intracellular trafficking. It was first identified as an adipocyte-specific protein, important for the maintenance of lipid and glucose metabolism. It is also detected in macrophages, where it participates in regulating inflammation and cholesterol trafficking via NF κ B and PPAR. In more recent studies, FABP4 has been found in a variety of endothelial cells, where it has been identified as a target of VEGF and a regulator of cell proliferation and possibly angiogenesis. Pathologically, FABP4 has been associated with the development of metabolic syndrome, diabetes and cancer and vulnerability of atherosclerotic plaques. FABP4 has been identified as a novel prognostic factor for both adverse cardiovascular events and breast cancer.		
Storage	Storage: Store at -20°C. Stable for one Storage Buffer: PBS with 0.02% sodium azic		
		0, 1

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

Selected Validation Data

WB result of FABP4 antibody (31129-1-AP; 1:400; room temperature for 1.5 hours) with wild-type and FABP4 knockout MC38 cells. Various lysates were subjected to SDS PAGE followed by western blot with 31129-1-AP (FABP4 antibody) at dilution of 1:1500 incubated at room temperature for 1.5 hours.
