For Research Use Only

TOM20 Monoclonal antibody, PBS Only

Catalog Number: 66777-1-PBS

Basic Information

Catalog Number: 66777-1-PBS

Size:

1000 µg/ml

Source:

Mouse

Isotype:
IgG2b

Immunogen Catalog Number:

AG2378

membrane 20 homolog (yeast)

Calculated MW:

145 aa, 16 kDa

Observed MW: 16 kDa

BC000882

9804

Q15388 Full Name:

GeneID (NCBI):

UNIPROT ID:

GenBank Accession Number:

translocase of outer mitochondrial

Applications

Tested Applications: WB, IF, IHC, ELISA Species Specificity: Human

Background Information

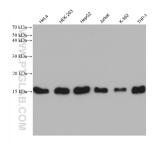

TOM20, also named as KIAA0016, belongs to the Tom20 family. It is a central component of the receptor complex responsible for the recognition and translocation of cytosolically synthesized mitochondrial preproteins. Together with TOM22, TOM20 functions as the transit peptide receptor at the surface of the mitochondrion outer membrane and facilitates the movement of preproteins into the TOM40 translocation pore. TOM20 is characterized as major docking receptors to mediate the recognition by different mechanisms.

Storage

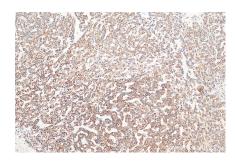

Storage: Store at -80°C. Storage Buffer: PBS only Purification Method: Protein A purification

CloneNo.: 1D6F5

Selected Validation Data

Various lysates were subjected to SDS PAGE followed by western blot with 66777-1-1g (TOM20 antibody) at dilution of 1:5000 incubated at room temperature for 1.5 hours. This data was developed using the same antibody clone with 66777-1-PBS in a different storage buffer formulation.

Immunohistochemical analysis of paraffinembedded human liver cancer tissue slide using 66777-1-Ig (TOM20 antibody) at dilution of 1:1000 (under 10x lens). Heat mediated antigen retrieval with Tris-EDTA buffer (pH 9.0). This data was developed using the same antibody clone with 66777-1-PBS in a different storage buffer formulation.

Immunofluorescent analysis of (4% PFA) fixed HepG2 cells using TOM20 antibody (66777-1-lg, Clone: 1D6F5) at dilution of 1:800 and CoraLite® 488-Conjugated Affini Pure Goat Anti-Mouse IgG(H+L), CL594-phalloidin (red). This data was developed using the same antibody clone with 66777-1-PBS in a different storage buffer formulation.
