

For Research Use Only

VE-cadherin Monoclonal antibody, PBS Only

Catalog Number: 66804-1-PBS

Basic Information

Catalog Number: 66804-1-PBS	GenBank Accession Number: NM_001795	Purification Method: Protein A purification
Size: 1mg/ml	GeneID (NCBI): 1003	CloneNo.: 4F9B10
Source: Mouse	UNIPROT ID: P33151	
Isotype: IgG1	Full Name: cadherin 5, type 2 (vascular endothelium)	
Immunogen Catalog Number: AG27501	Calculated MW: 88 kDa	
	Observed MW: 125 kDa, 100 kDa	

Applications

Tested Applications:
WB, IHC, ELISA

Species Specificity:
Human

Background Information

Cadherins are a family of transmembrane glycoproteins that mediate calcium-dependent cell-cell adhesion and play an important role in the maintenance of normal tissue architecture. Vascular endothelial cadherin (VE-cadherin), also known as Cadherin-5 (CDH5) or CD144, is a member of the type II classical cadherin family of cell adhesion proteins (PMID: 21269602). VE-cadherin is expressed specifically in endothelial cells and mediates homophilic adhesion in the vascular endothelium (PMID: 1522121; 8555485; 21269602). VE-cadherin plays a role in the organization of lateral endothelial junctions and in the control of permeability properties of vascular endothelium (PMID: 1522121). VE-cadherin has also been shown to be required for angiogenesis (PMID: 16473763; 18162609).

Storage

Storage:
Store at -80°C.

Storage Buffer:
PBS only

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

Selected Validation Data

human placenta tissue were subjected to SDS PAGE followed by western blot with 66804-1-Ig (VE-cadherin antibody) at dilution of 1:3000 incubated at room temperature for 1.5 hours. This data was developed using the same antibody clone with 66804-1-PBS in a different storage buffer formulation.

Immunofluorescent analysis of (4% PFA) fixed human placenta tissue using VE-cadherin antibody (66804-1-Ig, Clone: 4F9B10) at dilution of 1:400 and CoraLite®488-Conjugated AffiniPure Goat Anti-Mouse IgG(H+L). This data was developed using the same antibody clone with 66804-1-PBS in a different storage buffer formulation.
