

For Research Use Only

THBD Monoclonal antibody, PBS Only

Catalog Number: 67831-1-PBS

Basic Information

Catalog Number: 67831-1-PBS	GenBank Accession Number: BC035602	Purification Method: Protein A purification
Size: 1mg/ml	GeneID (NCBI): 7056	CloneNo.: 5A4C5
Source: Mouse	UNIPROT ID: P07204	
Isotype: IgG2b	Full Name: thrombomodulin	
Immunogen Catalog Number: AG5723	Calculated MW: 60 kDa	
	Observed MW: 105 kDa	

Applications

Tested Applications:
WB, IHC, Indirect ELISA

Species Specificity:
Human

Background Information

Thrombomodulin, also known as CD141, is an endothelial cell surface glycoprotein that forms a 1:1 complex with the coagulation factor thrombin and plays an important role as a natural anticoagulant. Thrombomodulin serves to convert thrombin from a procoagulant protein into the activator for protein C. Once converted to activated protein C (APC), this protein serves as a major anticoagulant in blood (PMID: 2827310). Thrombomodulin is also located in other cells (keratinocytes, osteoblasts, macrophages,...) where it might be involved in cell differentiation or in inflammation (PMID: 9814688). In humans, thrombomodulin is encoded by the THBD gene. Mutations in this gene are a cause of thromboembolic disease, also known as inherited thrombophilia. Thrombomodulin is glycosylated and has an apparent molecular weight of 75 to 110 kDa (PMID: 1650405; 2827310).

Storage

Storage:
Store at -80°C.

Storage Buffer:
PBS Only

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

Selected Validation Data

Various lysates were subjected to SDS PAGE followed by western blot with 67831-1-Ig (Thrombomodulin antibody) at dilution of 1:5000 incubated at room temperature for 1.5 hours. The membrane was stripped and reblotted with HRP-conjugated Lamin B1 Monoclonal antibody (HRP-66095) as loading control. This data was developed using the same antibody clone with 67831-1-PBS in a different storage buffer formulation.

Immunohistochemical analysis of paraffin-embedded human lung cancer tissue slide using 67831-1-Ig (Thrombomodulin antibody) at dilution of 1:1000 (under 10x lens). Heat mediated antigen retrieval with Tris-EDTA buffer (pH 9.0). This data was developed using the same antibody clone with 67831-1-PBS in a different storage buffer formulation.

Immunohistochemical analysis of paraffin-embedded human lung cancer tissue slide using 67831-1-Ig (Thrombomodulin antibody) at dilution of 1:1000 (under 40x lens). Heat mediated antigen retrieval with Tris-EDTA buffer (pH 9.0). This data was developed using the same antibody clone with 67831-1-PBS in a different storage buffer formulation.
