

For Research Use Only

Ferritin light chain Monoclonal antibody, PBS Only

Catalog Number: 68068-1-PBS

Basic Information

Catalog Number: 68068-1-PBS	GenBank Accession Number: BC008439	Purification Method: Protein G purification
Size: 1 mg/ml	GeneID (NCBI): 2512	CloneNo.: 1F9F5
Source: Mouse	UNIPROT ID: P02792	
Isotype: IgG1	Full Name: ferritin, light polypeptide	
Immunogen Catalog Number: AG20637	Calculated MW: 19 kDa	
	Observed MW: 18 kDa	

Applications

Tested Applications:
WB, IHC, IF, ELISA

Species Specificity:
Human, Mouse

Background Information

FTL belongs to the ferritin family. It stores iron in a soluble, non-toxic, readily available form. FTL is important for iron homeostasis. It plays a role in delivery of iron to cells. FTL mediates iron uptake in capsule cells of the developing kidney. Mutation of FTL will cause hereditary hyperferritinemia-cataract syndrome (HHCS) or neurodegeneration with brain iron accumulation type 3 (NBIA3). Ferritin light polypeptide (FTL) and ferritin heavy polypeptide (FTH1) were the main constituents the striatum and cerebellar cortex revealed.

Storage

Storage:
Store at -80°C.

Storage Buffer:
PBS only

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

Selected Validation Data

A549 cells were subjected to SDS PAGE followed by western blot with 68068-1-Ig (Ferritin light chain antibody) at dilution of 1:10000 incubated at room temperature for 1.5 hours. This data was developed using the same antibody clone with 68068-1-PBS in a different storage buffer formulation.

Immunohistochemical analysis of paraffin-embedded mouse brain tissue slide using 68068-1-Ig (Ferritin light chain antibody) at dilution of 1:1000 (under 40x lens). Heat mediated antigen retrieval with Tris-EDTA buffer (pH 9.0). This data was developed using the same antibody clone with 68068-1-PBS in a different storage buffer formulation.

Immunohistochemical analysis of paraffin-embedded mouse brain tissue slide using 68068-1-Ig (Ferritin light chain antibody) at dilution of 1:1000 (under 10x lens). Heat mediated antigen retrieval with Tris-EDTA buffer (pH 9.0). This data was developed using the same antibody clone with 68068-1-PBS in a different storage buffer formulation.

Immunofluorescent analysis of (-20°C Methanol) fixed HepG2 cells using FTL antibody (68068-1-Ig, Clone: 1F9F5) at dilution of 1:800 and CoraLite®488-Conjugated AffiniPure Goat Anti-Mouse IgG(H+L). This data was developed using the same antibody clone with 68068-1-PBS in a different storage buffer formulation.
