

For Research Use Only

# CSNK2A1 Monoclonal antibody, PBS Only

Catalog Number: 68200-1-PBS

Featured Product

## Basic Information

Catalog Number:

68200-1-PBS

Concentration:

1mg/ml

Source:

Mouse

Isotype:

IgG1

Immunogen Catalog Number:

AG29062

GenBank Accession Number:

BC011668

GeneID (NCBI):

1457

UNIPROT ID:

P68400

Full Name:

casein kinase 2, alpha 1 polypeptide

Calculated MW:

45 kDa

Observed MW:

40-45 kDa

Purification Method:

Protein G purification

CloneNo.:

1D5E8

## Applications

Tested Applications:

WB, IF/ICC, Indirect ELISA

Species Specificity:

human, rabbit

## Background Information

CSNK2A1 (Casein kinase II subunit alpha) is also named as CK2A1 and belongs to the CK2 subfamily. The CSNK2A1 gene contains 8 exons whose sequences comprise bases 102 to 824 of the coding region of the human casein kinase II alpha subunit. Casein kinase II is a ubiquitous protein-serine/threonine kinase in eukaryotic cells that catalyzes the phosphorylation of many protein substrates and has been regarded as a second-messenger-independent protein kinase. This enzyme is composed of an  $\alpha$  subunit (37 to 44 kDa) and a  $\beta$  subunit (24 to 28 kDa) and exists as an  $\alpha 2 \beta 2$  tetramer (PMID:1448100). Casein kinase 2 has been found to be increased at protein level and up-regulated at the level of enzyme activity in the majority of cancers. However, elevated levels of casein kinase 2 are present in certain normal organs such as brain and testes.

## Storage

Storage:

Store at -80°C.

The product is shipped with ice packs. Upon receipt, store it immediately at -80°C

Storage Buffer:

PBS only, pH7.3

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

## Selected Validation Data

Various lysates were subjected to SDS PAGE followed by western blot with 68200-1-Ig (CSNK2A1 antibody) at dilution of 1:20000 incubated at room temperature for 1.5 hours. The membrane was stripped and reblotted with HRP-conjugated GAPDH Monoclonal antibody (HRP-60004) as loading control. This data was developed using the same antibody clone with 68200-1-PBS in a different storage buffer formulation.

WB result of CSNK2A1 antibody (68200-1-Ig; 1:10000; room temperature for 1.5 hours) with wild-type and sg-CSNK2A1 transfected A549 cells. This data was developed using the same antibody clone with 68200-1-PBS in a different storage buffer formulation.

Immunofluorescent analysis of (4% PFA) fixed A431 cells using CSNK2A1 antibody (68200-1-Ig, Clone: 1D5E8) at dilution of 1:1500 and CoraLite®488-Conjugated AffiniPure Goat Anti-Mouse IgG(H+L) (SA00013-1), CL594-Phalloidin (red). This data was developed using the same antibody clone with 68200-1-PBS in a different storage buffer formulation.
