

For Research Use Only

Stathmin 1 Recombinant antibody, PBS Only

Catalog Number: 82559-1-PBS

Basic Information

Catalog Number: 82559-1-PBS	GenBank Accession Number: BC014353	Purification Method: Protein A purification
Size: 1 mg/ml	GeneID (NCBI): 3925	CloneNo.: 2H6
Source: Rabbit	UNIPROT ID: P16949	
Isotype: IgG	Full Name: stathmin 1/oncoprotein 18	
Immunogen Catalog Number: AG1633	Calculated MW: 18 kDa	
	Observed MW: 18 kDa	

Applications

Tested Applications:
WB, Indirect ELISA, IHC, IF

Species Specificity:
Human, rat, mouse

Background Information

Stathmin 1 (STMN1) normally regulates microtubule dynamics either by sequestering free tubulin heterodimers or by promoting microtubule catastrophe. STMN1 is highly expressed in fetal and adult brain, spinal cord, and cerebellum. Many different phosphorylated forms are observed depending on specific combinations among the sites which can be phosphorylated. Phosphorylation of stathmin is involved in response to NGF, neuron polarization and microtubule polymerization inhibition activity. Increased expression of STMN1 has been observed in a variety of human malignancies, such as colorectal primary tumors and metastatic tissues, but its association with melanoma is so far not well known.

Storage

Storage:
Store at -80°C.

Storage Buffer:
PBS Only

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

Selected Validation Data

Various lysates were subjected to SDS PAGE followed by western blot with 82559-1-RR (Stathmin 1 antibody) at dilution of 1:5000 incubated at room temperature for 1.5 hours. This data was developed using the same antibody clone with 82559-1-PBS in a different storage buffer formulation.

Immunohistochemical analysis of paraffin-embedded rat brain tissue slide using 82559-1-RR (Stathmin 1 antibody) at dilution of 1:2000 (under 40x lens). Heat mediated antigen retrieval with Tris-EDTA buffer (pH 9.0). This data was developed using the same antibody clone with 82559-1-PBS in a different storage buffer formulation.

Immunohistochemical analysis of paraffin-embedded rat brain tissue slide using 82559-1-RR (Stathmin 1 antibody) at dilution of 1:2000 (under 10x lens). Heat mediated antigen retrieval with Tris-EDTA buffer (pH 9.0). This data was developed using the same antibody clone with 82559-1-PBS in a different storage buffer formulation.

Immunofluorescent analysis of (-20°C Methanol) fixed HeLa cells using Stathmin 1 antibody (82559-1-RR, Clone: 2H6) at dilution of 1:1000 and CoraLite®488-Conjugated AffiniPure Goat Anti-Rabbit IgG(H+L). This data was developed using the same antibody clone with 82559-1-PBS in a different storage buffer formulation.

Immunofluorescent analysis of (-20°C Methanol) fixed NIH/3T3 cells using Stathmin 1 antibody (82559-1-RR, Clone: 2H6) at dilution of 1:1000 and CoraLite®488-Conjugated AffiniPure Goat Anti-Rabbit IgG(H+L). This data was developed using the same antibody clone with 82559-1-PBS in a different storage buffer formulation.
