For Research Use Only

MUC1/CA15-3 C-terminal Recombinant antibody

Purification Method:

Protein A purfication

Recommended Dilutions:

WB 1:5000-1:50000

CloneNo.:

240190G10

Catalog Number:83311-4-RR

Basic Information

Catalog Number: 83311-4-RR

R BC120975

 Size:
 GeneID (NCBI):

 1000 μg/ml
 4582

Source: UNIPROT ID: Rabbit P15941

Isotype: Full Name:
IgG mucin 1, cell surface associated

Immunogen Catalog Number: Calculated MW:

AG20366 1264 aa, 123 kDa Observed MW:

23-30 kDa

GenBank Accession Number:

Applications

Tested Applications:

WB, ELISA

Species Specificity: Human, mouse Positive Controls:

WB: BxPC-3 cells, mouse lung tissue

Background Information

MUC1 is a type I transmembrane glycoprotein expressed by various epithelial cells of the female reproductive tract, lung, breast, kidney, stomach, and pancreas. MUC1 is transcribed as a large precursor gene product, and upon translation, is cleaved in the endoplasmic reticulum, yielding two subunits: the large extracellular N-terminal subunit (MUC1-N, about 120-200 kDa) and the small cytoplasmic C-terminal subunit (MUC1-C, about 23-30 kDa). Among the known mucins, MUC1 is best studied and plays crucial roles in regulating many cellular properties, including cell proliferation, apoptosis, adhesion, and invasion. MUC1 is overexpressed in a wide range of human epithelial malignancies. This antibody was raised against the C-terminal region of human MUC1, thus it recognizes the 23-30 kDa cytoplasmic MUC1.

Storage

Storage

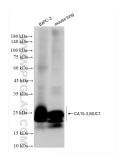

Store at -20°C. Stable for one year after shipment.

Storage Buffer:

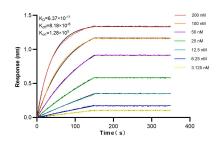

PBS with 0.02% sodium azide and 50% glycerol pH 7.3.

Aliquoting is unnecessary for -20°C storage

Selected Validation Data

Various lysates were subjected to SDS PAGE followed by western blot with 83311-4-RR (MUC1/CA15-3 antibody) at dilution of 1:10000 incubated at room temperature for 1.5 hours.

Biolayer interferometry (BLI) kinetic assays of 83311-4-RR against Human CA15-3/MUC1 were performed. The affinity constant is 63.7 pM.
