For Research Use Only

PLTP Recombinant antibody, PBS Only

Catalog Number:84592-1-PBS

Basic Information

Catalog Number:

GenBank Accession Number:

Purification Method:

84592-1-PBS

GeneID (NCBI):

Protein A purfication CloneNo.:

Size: 1 mg/ml

5360

BC005045

241583F3

Source: Rabbit

UNIPROT ID: P55058 Full Name:

Isotype:

phospholipid transfer protein

Immunogen Catalog Number: AG8171

Calculated MW: 493 aa, 55 kDa

Observed MW:

55 kDa

Applications

Tested Applications:

WB, IHC, Indirect ELISA

Species Specificity:

human, mouse, rat

Background Information

PLTP (phospholipid transfer protein) belongs to the family of lipid-binding and lipid-transfer proteins. PLTP is involved in the distribution and metabolism of high-density lipoprotein (HDL) and reverse cholesterol transfer (RCT). In plasma, PLTP catalyzes the transfer of phospholipids (mainly phosphatidylcholine) between lipoproteins (PMID: 29558025). PLTP has a predicted protein molecular mass of approximately 55 kDa, and molecular weights of 70-80 kDa can also be detected in some literature (PMID: 26160914; 36312255; 29680823; 15342679; 7654777).

Storage

Storage:

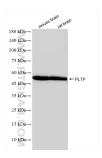

Store at -80°C.

The product is shipped with ice packs. Upon receipt, store it immediately at -80°C

Storage Buffer:

PBS Only

Selected Validation Data

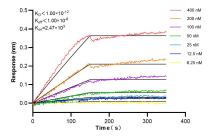

Various lysates were subjected to SDS PAGE followed by western blot with 84592-1-RR (PLTP antibody) at dilution of 1:10000 incubated at room temperature for 1.5 hours. This data was developed using the same antibody clone with 84592-1-PBS in a different storage buffer formulation.

Immunohistochemical analysis of paraffinembedded mouse brain tissue slide using 84592-1-RR (PLTP antibody) at dilution of 1:800 (under 10x lens). Heat mediated antigen retrieval with Tris-EDTA buffer (pH 9.0). This data was developed using the same antibody clone with 84592-1-PBS in a different storage buffer formulation.

Immunohistochemical analysis of paraffinembedded mouse brain tissue slide using 84592-1-RR (PLTP antibody) at dilution of 1:800 (under 40x lens). Heat mediated antigen retrieval with Tris-EDTA buffer (pH 9.0). This data was developed using the same antibody clone with 84592-1-PBS in a different storage buffer formulation.

Biolayer interferometry (BLL) kinetic assays of 84592-1-RR against Human PLTP were performed. The affinity constant is below 1 pM.
