

For Research Use Only

GPAA1 Recombinant antibody, PBS Only

Catalog Number: 84632-1-PBS

Basic Information

Catalog Number: 84632-1-PBS	GenBank Accession Number: BC004129	Purification Method: Protein A purification
Size: 1 mg/ml	GeneID (NCBI): 8733	CloneNo.: 241591C4
Source: Rabbit	UNIPROT ID: O43292	
Isotype: IgG	Full Name: glycosylphosphatidylinositol anchor attachment protein 1 homolog (yeast)	
Immunogen Catalog Number: AG0152	Calculated MW: 68 kDa	
	Observed MW: 60-68 kDa	

Applications

Tested Applications:
WB, Indirect ELISA

Species Specificity:
human

Background Information

GPAA1 (Glycosylphosphatidylinositol anchor attachment 1 protein) is also named as GAA1. It is the most conspicuously hydrophobic of the known subunits of GPIT, and it may play a key role in substrate recognition. It is predicted to be a multispreading membrane protein of 67 kDa with seven transmembrane (TM) domains, a large luminal domain between the first two TM segments, and a cytoplasmically oriented N terminus bearing a potential ER retrieval signal in the form of a diarginine motif (PMID:12052837).

Storage

Storage:
Store at -80°C.
The product is shipped with ice packs. Upon receipt, store it immediately at -80°C

Storage Buffer:
PBS Only

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

Selected Validation Data

Various lysates were subjected to SDS PAGE followed by western blot with 84632-1-RR (GPAA1 antibody) at dilution of 1:10000 incubated at room temperature for 1.5 hours. This data was developed using the same antibody clone with 84632-1-PBS in a different storage buffer formulation.

Biolayer interferometry (BLI) kinetic assays of 84632-1-RR against Human GPAA1 were performed. The affinity constant is 0.141 nM.
