

For Research Use Only

RPL15 Recombinant antibody, PBS Only

Catalog Number: 84900-1-PBS

Basic Information

Catalog Number: 84900-1-PBS	GenBank Accession Number: BC070328	Purification Method: Protein A purification
Size: 1 mg/ml	GeneID (NCBI): 6138	CloneNo.: 242029E3
Source: Rabbit	UNIPROT ID: P61313	
Isotype: IgG	Full Name: ribosomal protein L15	
Immunogen Catalog Number: AG9948	Calculated MW: 204 aa, 24 kDa	
	Observed MW: 27 kDa	

Applications

Tested Applications:
WB, Indirect ELISA

Species Specificity:
human, mouse, rat

Background Information

RPL15 (ribosomal protein L15) is a component of the ribosomal large subunit 60S, participating in the assembly process of ribosomal subunits and involved in the processing of rRNA. Moreover, RPL15 deletion will lead to abnormalities in the biogenesis of ribosomal subunits. The abnormal expression or mutation of RPL15 protein is also closely related to the occurrence and development of many diseases. RPL15 was highly expressed in gastric cancer cell lines, and interference with the expression of RPL15 could inhibit gastric cancer cell growth. In addition, RPL15 in skin squamous cell carcinoma tissues and pancreatic cancer cell lines decreased sharply, which had a great relationship with the survival rate. PMID:35410346

Storage

Storage:
Store at -80°C.
The product is shipped with ice packs. Upon receipt, store it immediately at -80°C

Storage Buffer:
PBS Only

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

Selected Validation Data

Various lysates were subjected to SDS PAGE followed by western blot with 84900-1-RR (RPL15 antibody) at dilution of 1:10000 incubated at room temperature for 1.5 hours. This data was developed using the same antibody clone with 84900-1-PBS in a different storage buffer formulation.
