

For Research Use Only

Anti-Human CD69 Rabbit Recombinant Antibody

Catalog Number: 98173-1-RR

Basic Information

Catalog Number: 98173-1-RR	GenBank Accession Number: NM_001781.2	Purification Method: Protein A purification
Size: 100ug, 1000 ug/ml	GeneID (NCBI): 969	CloneNo.: 241552F1
Source: Rabbit	UNIPROT ID: Q07108	
Isotype: IgG	Full Name: CD69 molecule	
	Calculated MW: 23 kDa	

Applications

Tested Applications:
FC

Species Specificity:
human

Background Information

CD69, also known as AIM, EA-1, Leu-23, and MLR3, is a type II transmembrane glycoprotein that belongs to the C-type lectin superfamily (PMID: 8340758; 7804122). CD69 is constitutively expressed by mature thymocytes, platelets, several subsets of tissue resident immune cells (including resident memory T cells and gamma delta T cells), and is inducibly expressed by activated T cells, B cells, natural killer (NK) cells, monocytes, neutrophils (PMID: 8100776; 28475283). CD69 has been identified as an early activation marker of lymphocytes and is commonly used as a marker of activated lymphocytes and NK cells (PMID: 28475283; 25759842). It is involved in the regulation of immune responses (PMID: 15745855).

Storage

Storage:
Store at 2 - 8°C. Stable for one year after shipment.

Storage Buffer:
PBS with 0.09% sodium azide, pH 7.3.

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

Selected Validation Data

1x10⁶ untreated or PHA treated human PBMCs were surface stained with 0.25 ug Anti-Human CD69 Rabbit Recombinant Antibody (98173-1-RR, Clone:241552F1) and PE-Conjugated Goat Anti-Rabbit IgG(H+L). Cells were then stained with APC Anti-Human CD4 (RPA-T4). Cells were incubated with FC Receptor Block prior to staining. Cells were not fixed.

1x10⁶ PHA treated human PBMCs were surface stained with 0.25 ug Anti-Human CD69 Rabbit Recombinant Antibody (98173-1-RR, Clone:241552F1) (red) or 0.25 ug Isotype Control, or 1x10⁶ untreated human PBMCs were surface stained with 0.25 ug Anti-Human CD69 Rabbit Recombinant Antibody (98173-1-RR, Clone:241552F1)(black, dashed) and PE-Conjugated Goat Anti-Rabbit IgG(H+L). Cells were incubated with FC Receptor Block prior to staining. Cells were not fixed.

Bi-layer interferometry (BLI) kinetic assays of 98173-1-RR against Human CD69 were performed. The affinity constant is 0.257 nM.
