For Research Use Only

CoraLite® Plus 405 Anti-Human Endoglin/CD105 Rabbit Recombinant Antibody

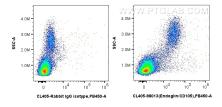

Catalog Number: CL405-98013

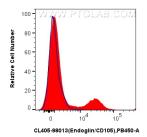

Basic Information	Catalog Number: CL405-98013	GenBank Accession Number: BC014271	Purification Method: Protein A purification
	Size: 100tests, 5 ul/test	GeneID (NCBI): 2022	CloneNo.: 230047E5
	Source: Rabbit	UNIPROT ID: P17813	Excitation/Emission maxima wavelengths: 399 nm / 422 nm
	lsotype: IgG	Full Name: endoglin	
		Calculated MW: 71 kDa	
Applications	Tested Applications: FC Species Specificity: human		
Background Information	Endoglin (ENG, CD105) is a homodimeric cell membrane glycoprotein of 180 kDa, composed of disulphide-linked subunits of 90-95 kDa. Endoglin is a proliferation-associated and hypoxia-inducible protein mainly expressed on vascular endothelial cells. It acts as an accessory receptor for transforming growth factor beta (TFG- β) and is involved in vascular development and remodeling. The important role of Endoglin in angiogenesis and in tumor progression makes it an ideal target for antiangiogenic therapy and a good marker for tumor prognosis. (PMID: 1326540; 14528280; 21737653; 12773481)		
Storage	Storage: Store at 2-8°C. Avoid exposure to li Storage Buffer: PBS with 0.09% sodium azide and 0

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

Selected Validation Data

1x10[^]6 human PBMCs were surface stained with 5 ul CoraLite® Plus 405 Anti-Human Endoglin/CD105 Rabbit Recombinant Antibody (CL405-98013, Clone:230047E5), or Isotype Control (blue). Cells were incubated with FC Receptor Block prior to staining. Cells were not fixed.

1x10^6 human PBMCs were surface stained with 5 ul Coralite® Plus 405 Anti-Human Endoglin/CD105 Rabbit Recombinant Antibody (CL405-98013, Clone:230047E5)(red), or Isotype Control (blue). Cells were incubated with FC Receptor Block prior to staining. Cells were not fixed.
