For Research Use Only

CoraLite®594 Anti-Human SLAM/CD150 Rabbit Recombinant Antibody

Catalog Number: CL594-98220

Basic Information

Catalog Number: CL594-98220 Concentration: 100tests, 5 ul/test

Source: UNIPROT ID:
Rabbit Q13291-1
Isotype: Full Name:
IgG signaling lymphocytic activation

Calculated MW:

NM_003037.5

GeneID (NCBI):

GenBank Accession Number:

molecule family member 1

37kDa

Purification Method: Protein A purification

CloneNo.: 241800B12

Excitation/Emission maxima wavelengths:

588 nm / 604 nm

Applications

Tested Applications:

FC

Species Specificity:

human

Background Information

Signaling lymphocytic activation molecule (SLAM, also known as SLAMF1 or CD150) is a 70-95 kDa transmembrane glycoprotein that belongs to the immunoglobulin gene superfamily. SLAM is constitutively expressed on peripheral blood memory T-cells, T-cell clones, immature thymocytes and a proportion of B-cells, and is rapidly induced on naive T-cells after activation. SLAM is involved in T cell stimulation and cytokine production, and may play an important role in the regulation of immune responses to pathogens.

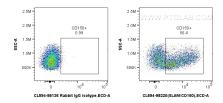

Storage

Storage:

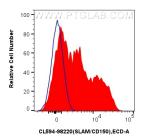

Store at 2-8°C. Avoid exposure to light. Stable for one year after shipment. Storage Buffer.

PBS with 0.09% sodium azide and 0.5% BSA.

Selected Validation Data

1x10^6 human PBMCs were surface stained with 5 ul CoraLite®594 Anti-Human SLAM/CD150 Rabbit RecAb (CL594-98220, Clone: 241800B12) or CoraLite®594 Rabbit IgG Isotype Control RecAb (CL594-98136, Clone: 240953C9). Cells were not fixed. Lymphocytes were gated.

1x10^6 human PBMCs were surface stained with 5 ul CoraLite®594 Anti-Human SLAM/CD150 Rabbit RecAb (CL594-98220, Clone: 241800B12) (red) or CoraLite®594 Rabbit IgG Isotype Control RecAb (CL594-98136, Clone: 240953C9) (blue). Cells were not fixed. Lymphocytes were gated.
