For Research Use Only

CoraLite®595-conjugated P62,SQSTM1 Polyclonal antibody

Catalog Number: CL595-18420

Featured Product

Basic Information

Catalog Number: CL595-18420

Size: 1000 µg/ml Source: Rabbit Isotype:

Immunogen Catalog Number:

AG13131

48 kDa 62 kDa

Q13501

GenBank Accession Number:

BC017222 GeneID (NCBI): 8878 **UNIPROT ID:**

Full Name: sequestosome 1 Calculated MW:

Observed MW:

Purification Method:

Antigen affinity purification Excitation/Emission maxima

wavelengths: 592 nm / 611 nm

Applications

Tested Applications:

FC (Intra)

Species Specificity: human, mouse, rat

Background Information

Sequestosome 1 (SQSTM1/p62) is a multifunctional adaptor protein implicated in selective autophagy, cell signaling pathways, and tumorigenesis. p62 has been implicated in shuttling ubiquitinated and aggregated proteins for autophagic degradation. p62 is degraded during the autophagic process, which makes its intracellular level a $marker for autophagy\ progression.\ p62\ is\ at\ the\ cross-roads\ of\ several\ signaling\ pathways\ including\ Ras/\ Raf/\ MAPK$ and NF x B and plays important role in cancer. p62 is a component of inclusion bodies/ protein aggregates found in human diseases, including Huntington's disease, Alzheimer's disease, Parkinson's disease, and nephropathic cystinosis (PMID: 22074114, 22860231, 22714671). The molecular weight of p62 is predicted to be 48/38 kDa (depending on the isoform), while western blot analyses using this antibody detects the bands around 45-48 kDa and 60-62 kDa, respectively.

Storage

Storage:

Store at -20°C. Avoid exposure to light. Stable for one year after shipment.

PBS with 50% Glycerol, 0.05% Proclin300, 0.5% BSA, pH 7.3.

Aliquoting is unnecessary for -20°C storage

Selected Validation Data
