

For Research Use Only

CoraLite® Plus 647 Anti-Mouse IL-17F Rabbit Recombinant Antibody

Catalog Number: CL647-98019

Basic Information

Catalog Number: CL647-98019	GenBank Accession Number: NM_145856.2	Purification Method: Protein A purification
Size: 100ug, 500 µg/ml	GeneID (NCBI): 257630	CloneNo.: 230026G6
Source: Rabbit	UNIPROT ID: Q7TNI7-1	Excitation/Emission maxima wavelengths: 654 nm / 674 nm
Isotype: IgG	Full Name: interleukin 17F	
	Calculated MW: 17KD	

Applications

Tested Applications:
FC (Intra)

Species Specificity:
mouse

Background Information

The interleukin 17 (IL-17) family of cytokines contains 6 structurally related cytokines, IL-17A, IL-17B, IL-17C, IL-17D, IL-17E and IL-17F. IL-17 family plays crucial roles in host defense against microbial organisms and in the development of inflammatory diseases. IL-17A is a pro-inflammatory cytokine that also has the capacity to promote angiogenesis and osteoclastogenesis. IL-17F shares the highest homology with IL-17A and signals via a receptor composed by the IL-17RA and IL-17RC subunits. IL-17A and IL-17F can form IL-17A/A or IL-17F/F homodimers, IL-17A/F heterodimers are also formed. IL-17A and IL-17F, produced by the Th17 CD4(+) T cell lineage, have been linked to a variety of inflammatory and autoimmune conditions. IL-17F levels are elevated in sera and lesional psoriatic skin compared to non-lesional tissue. IL-17F also has been implicated in the development of neutrophilic airway inflammation.

Storage

Storage:
Store at 2-8°C. Avoid exposure to light.

Storage Buffer:
PBS with 0.09% sodium azide.

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

Selected Validation Data

1x10⁶ untreated or PMA, Ionomycin and Brefeldin A treated C57BL/6 Th17-polarized splenocytes were intracellularly stained with 0.25ug CoraLite® Plus 647 Anti-Mouse IL-17F Rabbit Recombinant Antibody (CL647-98019, Clone:230026G6). Cells were then stained with FITC Plus Anti-Mouse CD4. Cells were fixed with 4% PFA and permeabilized with Intracellular Staining Permeabilization Wash Buffer.
