For Research Use Only

## FITC-conjugated ATF4 Polyclonal antibody

Catalog Number: FITC-10835

1 Publications

**Basic Information** 

Catalog Number: FITC-10835 Size:

1000 µg/ml Source: Rabbit Isotype:

Immunogen Catalog Number:

GenBank Accession Number:

BC022088 GeneID (NCBI):

**UNIPROT ID:** P18848 Full Name:

activating transcription factor 4 (taxresponsive enhancer element B67)

Calculated MW: 39 kDa Observed MW:

45-50 kDa

**Applications** 

**Tested Applications:** FC (Intra), IF/ICC Cited Applications:

Species Specificity: human, mouse Cited Species: human

Positive Controls:

IF: HepG2 cells, Tunicamycin treated HeLa cells

**Purification Method:** 

IF 1:50-1:500

wavelengths: 498 nm / 526 nm

Antigen affinity purification

Excitation/Emission maxima

Recommended Dilutions:

## **Background Information**

ATF4 is a transcription factor, that accumulates predominantly in osteoblasts, where it regulates terminal osteoblast  $differentiation\ and\ bone\ formation \ [PMID:\ 19016586].\ As\ a\ basic\ leucine-zipper\ (bZip)\ transcription\ factor,\ ATF4\ can$ regulate amino acid metabolism, cellular redox state, and anti-stress responses. It also regulates age-related and diet-induced obesity and glucose homeostasis in mammals, and has conserved metabolic functions in flies[PMID: 19726872]. Due to its location at chromosome 22q13, a region linked to schizophrenia, ATF4 is considered as a positional candidate gene for schizophrenia [PMID: 18163433]. Otherwise, since ATF4 is induced by tumour microenvironmental factors, and regulates processes relevant to cancer progression, it might serve as a potential therapeutic target in cancer. Endogenous ATF4 protein has a molecular mass of 50kd. [PMID: 17726049]. This antibody is a rabbit polyclonal antibody raised against full length human ATF4 antigen. The antibody recognizes the 38kd ATF4 protein and its phosphorylated forms (50kd). ATF4 can bind DNA as a homodimer and as a heterodimer. ATF4 is ubiquitinated by SCF(BTRC) in response to mTORC1 signal, followed by proteasomal degradation and leading to down-regulate expression of SIRT4, so the molecular weight of ATF4 may be 70 kDa.

## **Notable Publications**

Author	Pubmed ID	Journal	Application
Yibo Dong	30181714	Cancer Cell Int	IF

Storage

Storage:

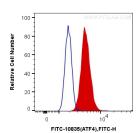

Store at -20°C. Avoid exposure to light. Stable for one year after shipment.

Storage Buffer:

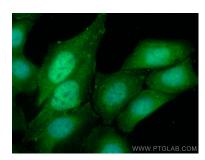

PBS with 50% Glycerol, 0.05% Proclin300, 0.5% BSA, pH 7.3.

Aliquoting is unnecessary for -20°C storage

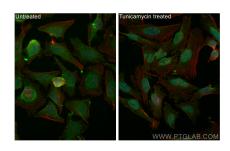

## Selected Validation Data

Immunofluorescent analysis of (4% PFA) fixed HepG2 cells using FITC ATF4 antibody (FITC-10835) at dilution of 1:200.

Immunofluorescent analysis of (4% PFA) fixed Tunicamycin treated HeLa cells using FITC ATF4 antibody (FITC-10835) at dilution of 1:200, CL594-Phalloidin (red).
